Christmas Trees—Pot Grown

Choicest Specimens of Spruce for Table Decorations

Ready for delivery about December 15th

For the past few years we have supplied many hundreds of Christmas Trees, for table decoration, but previously the trees have been cut off. The small Spruces which we now offer, are all pot grown and in a live and healthy condition. They will make a useful ornament for some time in the house, or they may be planted out of doors if the ground is not frozen too hard, and will furnish nice specimen trees. **Price for these pot-grown Christmas Trees, \$1.00.** Orders must be received before December 1, 1913.

HYACINTHS

The Hyacinth is one of the most popular of the Fall bulbs and commands a place in every home and garden. There is nothing more attractive than a well-grown pan of Hyacinths, with their brilliant colors and delightful fragrance, together with their long-keeping qualities and decorative appearance. They can be flowered during January and a succession of bloom may be had until about the middle of April.

Culture Outdoors. Prepare the beds or borders where they are to be planted with well-rotted manure, having it well dug over to a depth of at least 12 inches, being well assured that the soil is well drained to avoid any decay of the bulbs. Plant the bulbs at least 5 inches deep and 6 apart. As soon as the ground begins to freeze cover the beds with a litter of leaves, straw or pine boughs to a thickness of 6 or 8 inches. This covering should be removed as early as possible after all danger from severe cold weather is past.

Culture in Pots. When potting Hyacinths for growing indoors a medium light, well-enriched soil is best suited, placing some broken crock in the bottom for drainage. Set the bulbs about $\frac{1}{2}$ inch below surface of soil, giving them a thorough watering, and put them away in a dark, cold place so that they will not freeze; water them as often as need be to avoid drying. They should be allowed to remain for at least 12 weeks, or until the pot is well filled with roots, when they may be removed to a warmer location, but still kept dark until a growth of 4 to 5 inches is made, then bring to the light gradually until allowed to flower.

When a repetition of bloom is required, bring out one or more pots every week or ten days from place where allowed to root.

Culture in Glasses. To grow Hyacinths in glasses of water the type illustrated should be used. The largest size bulbs should be selected, as they produce better results, are more rigid in the glasses and will support the top-heavy bloom. When the bulb is placed in the top of the glass, fill up with water so that the bottom of the bulb is about $\frac{1}{4}$ inch below level of water. Change the water every three or four days. A little broken charcoal put in the water will help to keep it fresh and sweet. The same general directions apply for growing in water as noted in "Culture in Pots." We recommend the Top Roots or Mother Bulbs for growing in glasses.

Short Hyacinth Glass

GLASSES FOR GROWING HYACINTHS

We can supply two styles, as seen in the accompanying illustrations. Colors: amber, green blue and clear crystal. **Each 18 cts., doz. \$1.75.** We cannot send these by mail.

Top Root or Mother Bulbs

MOTHER BULBS ARE THE BEST FOR GROWING IN GLASSES

Owing to the limited supply of these Mother Bulbs, we are unable to offer a very long list of varieties, and these only in small quantities. Our list comprises the best forcing varieties. These bulbs produce immense spikes or trusses, with large, perfect bells, and furnish the choicest quality for exhibition.

Each 25 cts., doz. \$2.50, 100 \$18.00. Add 3 cts. each, or 20 cts. per doz., for postage.

Hyacinths for Bedding

None of the many Spring-flowering bulbs can produce the uniform and symmetrical effects of the Hyacinth. Its distinct and bright colors, sturdy and erect habit, and the beautiful contrasts produced when planted in solid beds or used as a border for other tall-growing bulbs, give it a deservedly front place among flowering bulbs.

Our special bedding Hyacinths are all sound bulbs, sure to bloom and develop large, compact spikes. They are fine for bordering perennial beds and shrubbery. This size will give excellent results.

WE OFFER THESE, BOTH SINGLE AND DOUBLE, IN THE FOLLOWING COLORS:

Dark Red
Rose and Pink

Pure White
Blush and Tinted White
Light Blue and Lavender

Dark Blue and Purple
Yellow
Mixture of Colors

Each 6 cts., doz. 50 cts., 100 \$3.50, 1000 \$32.00. Add 12 cts. per doz. for postage.

Hyacinths—Single Extra-Selected First-Size

Our exceptionally choice First Size Hyacinths have always given excellent satisfaction, and our stock this season gives our customers an opportunity to procure the best that comes to this country. Our own special growers, who give their personal attention to this particular class of bulbs, assure us that there are none better. The varieties which we offer are all large-flowering bulbs, producing large, uniform trusses. Excellent for growing in Pots or Glasses.

Add 2c. each, or 15c. per doz., for postage.

Hyacinths

Second Size Named Varieties for Bedding

These Hyacinths are a special size for bedding and when grown in the open produce nearly as large and perfect spikes as the larger bulbs. They are also well adapted for forcing in pots and bulb pans and will form perfect spikes, though not as large as those obtained from the big bulbs.

We offer the following sorts. The distinct colors may be obtained from our list of First Size Hyacinths on this and the preceding pages.

Add 2 cts. each, or 15 cts. per doz., for postage.

RED AND ROSE	L'Innocence

Price of the above: Each 7 cts., doz. 75 cts., 100 \$6.00, 1000 \$55.00

Hyacinths

Miniature, or Dutch Roman

The bulbs of this Hyacinth are of a small size but of the true Dutch type, and not allied to the Roman Hyacinth as the name may imply. These bulbs are suitable for growing in large quantities where close masses of flowers are wanted, such as may be required in a perennial bed and border; or they may be used in clumps among shrubbery and also for edging.

We offer these in the following varieties. The distinct colors may be obtained from our list of First Size Hyacinths on pages 3 and 4.

RED AND ROSE

Musk Hyacinths

Delightfully fragrant.

Major. Large; blue. Each 50 cts., doz. \$5.00.

Minor. Purple. Each 40 cts., doz. \$4.50.

Grape Hyacinth

Early Roman Hyacinths

These early-flowering Hyacinths are particularly valuable for the florists in their Fall and Winter cut-flower work, and are equally important for the amateurs that they may obtain flowers through Thanksgiving and Christmas until the Dutch Hyacinths commence to bloom. To obtain the above results plant early in September and force gently. Six bulbs planted in a 6-inch pot or bulb pan make a very fine effect.

Add 10 cts. per doz., or 65 cts. per 100, for postage.

White Italian, or Parisian. These are about two weeks later than the Romans, and the blossoms somewhat larger; very fragrant. 50 cts. per doz., \$3.75 per 100, \$32.00 per 1000.

Feathered Hyacinths

Add 12 cts. per 100 for postage. Mailed free at doz. price.

Very pretty, hardy Spring flowers, forming graceful spikes of plume-like flowers. Grow well in almost any soil.

Muscari plumosus. Doz. 25 cts., 100 \$1.50, 1000 \$12.00.

Grape Hyacinths

For the Grass, hardy border, or in clumps between shruberies, they are excellent and very inexpensive. Grown in masses, they produce best effect. They are also very dainty when grown in fern pans for table decoration.

Add 10 cts. per 100 for postage. Mailed free at doz. price.

Alba. White. Doz. 20 cts., 100 \$1.00, 1000 \$7.00.
Cœrulea. Blue. Doz. 15 cts., 100 60 cts., 1000 \$4.00.
Heavenly Blue. Of a delicate sky-blue color, with large bells forming a thick, symmetrical truss of unusual size. Doz. 20 cts., 100 \$1.00, 1000 \$8.00.

Tulips for Bedding on the Lawn

SINGLE EARLY TULIPS

At the time of year when a flower of any sort attracts attention, the Tulips probably have no equal. The effects which they produce with their varied and brilliant colorings cannot be obtained in any other flower during the early Spring. Tulips make a most gorgeous display in flower beds before the time for planting the regular Summer flowers, and also produce a beautiful effect among shrubbery and perennial beds if planted in groups or clumps or used as borders. For forcing in the house in Winter, Tulips will make as nice pot plants as any one may desire. The same general directions for cultivation in pots may be used as for Hyacinths (see page 1).

The Single Early Tulips are the best for bedding, as they flower much earlier than the other sorts and will be through blooming in time for the preparation of beds for Summer flowers. Tulip bulbs should be set four inches apart, and covered at least four inches deep. Close planting produces the best bedding effects.

d indicates dwarf varieties; *m* those of medium height; *t*, tall-growing varieties.

Add 5 cts. per doz., or 30 cts. per 100, for postage.

FOTTLER, FISKE, RAWSON CO'S Prize Mixture Single Early Tulips

Our F. F. R. Prize Mixture is the best assortment we have been able to select during our long experience. It contains all of the most desired, brilliant, striking and fancy colors, together with those of peculiar shading and markings.

This mixture comprises our best named varieties, as well as a great many sorts which we do not list. They are so assembled that they all attain approximately the same height and also flower within a few days of each other. The first size bulbs are the only ones used in this mixture; no inferior grade used. The satisfaction which this assortment has given to so many of our customers thoroughly recommends them to all who have not tried them. **Doz. 35 cts., 100 \$2.50, 1000 \$20.00.**

Choice Selected Mixture

This Choice Selected Mixture is a combination of well-known and standard varieties which have always proved satisfactory, but does not include the new and high-priced sorts. These bulbs are all first size, blooming as near together as possible.

We can also supply the separate colors used in this mixture; such as crimson, dark red, scarlet, pink, rose, yellow and white. **Doz. 30 cts., 100 \$1.75, 1000 \$15.00.**

Superfine Mixture

A fine imported mixture, blended by one of our best growers in Holland. These bulbs do not average as large in size, but are all first-class bulbs and of a fine flower-producing quality. **Doz. 15 cts., 100 \$1.00, 1000 \$9.00.**

DUC VAN THOL

An extra-early blooming sort, attaining a height of 8 to 10 inches, and one of the finest varieties for forcing. If these are planted early in September they may be had in flower for Christmas. We can supply the following colors:

Giant Darwin Tulips

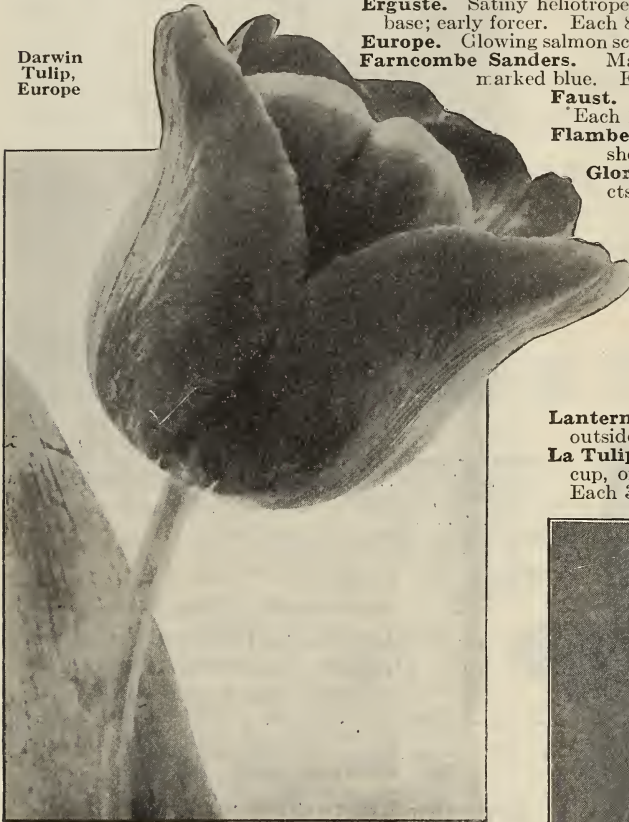

The Late-flowering Darwin Tulip has outclassed all its predecessors in type, style and beauty and is at the present time the Queen of the Tulip family. It attains a height of two to three feet, with strong, heavy foliage, erect and robust stem, terminating in large and massive flowers. The colors of the Darwin embrace all the shades of white, pink, lilac, rose, scarlet, crimson and maroon, and most of the flowers show a particular satiny effect. Darwin Tulips are the finest among shrubby and perennials; they grow tall, bloom for a long time and if planted six to eight inches deep and left undisturbed will flower for many seasons. A great many of the varieties will force to good advantage and may be had in bloom during March.

Add 5 cts. per doz., or 30 cts. per 100, for postage.

Darwin Tulip, Dream

Late Rembrandt Tulips

The Rembrandt Tulip is one of the fanciest and most striking of the new Tulips, belonging as it does to the Late or May-flowering class and is a Darwin of the variegated and feathered type, having broken away from the regular self colors of the Darwin. The blending of the colors is quite remarkable, while the contrasting colors produce the finest and prettiest effects. Their tall, sturdy stems supporting the large and perfectly formed blooms make this one of the finest of our Spring-flowering bulbs. The following varieties are the best at the present time.

Rembrandt Tulip

Single Late or May-Flowering Tulips

These lovely late-flowering Tulips are very effective for all kinds of decorative work, and their value as cut flowers cannot be overestimated. They are all perfectly hardy, raised in the most northern part of Great Britain and Ireland, and are eminently fitted for border cultivation for bedding, forcing and every purpose to which the early-flowering Tulip is put. They often grow from two to three feet high, and flower usually about Memorial Day, lasting fully two weeks in bloom. We have given this group considerable attention in recent years, and we can fully recommend the varieties listed below as the best of their kind.

Single Late
Tulip,
Isabella

Columbus. (Gala Beauty.) Rich, velvety crimson, striped with gold; shape that of Mrs. Moon; deliciously perfumed, and excellent in every way. Height 16 in. Each 15 cts., doz. \$1.50, 100 \$10.00.

Elegans. Grand border Tulip; petals rich carmine, elegantly reflexed, base yellow. The finest of the early-flowering set for cutting. A free grower. Each 8 cts., doz. 40 cts., 100 \$3.00.

Gesneriana alba marginata. Pure white, delicate, edged rose. Doz. 40 cts., 100 \$2.50.

Gesneriana major. Large; crimson scarlet, with glittering blue-black center. Excellent for massive bedding; also for Memorial Day cutting. Height 20 in. Each 5 cts., doz. 30 cts., 100 \$1.75, 1000 \$15.00.

Single Late, Named Tulips

Add 5 cts. per doz., or 30 cts. per 100, for postage.

Beauty of America. Pale yellow, turning white with red border. Doz. 40 cts., 100 \$2.50.

Bouton d'Or. (Ida: Golden Beauty.) Tall, stately, cup-shaped flowers of a bright, golden yellow; last a long time in good condition. A grand Tulip for massing for long distance effect. Doz. 25 cts., 100 \$1.75, 1000 \$15.00.

Breeders. A mixture of self colors, such as scarlet, crimson violet, etc., with white base. Doz. 30 cts., 100 \$1.50, 1000 \$12.00.

CROCUS, SPRING-FLOWERING

"The Heralds of Spring"

Crocuses, among the first flowers to bloom in the early Spring, are always the admiration of everyone, especially when planted amid the grass in lawns, their bright flowers producing a fine contrast. They may also be planted among other Spring-flowering bulbs, such as Tulips, Hyacinths and Narcissi, making a splendid show before the other varieties begin to bloom. The results obtained from planting Crocus in pots or pans for house blooming are very satisfactory. For this purpose it is advisable to use the best named varieties. To grow Crocus in pots, place the bulbs about one-half inch apart and one-half inch deep, keeping them in a cool place until thoroughly rooted, when they may be brought to the light for blooming. In the open, bulbs should be set at least 3 inches deep.

Postage free at doz. prices. Add 15 cts. per 100 for postage.

Colchicum Autumnale major

Narcissus, Daffodils and Jonquils

There is at the present time a very large assortment of Narcissi from which to make selections, and nearly all are of a quality worthy of cultivation. It is almost impossible to list the complete line of these beautiful Spring flowers, but in the following few pages we offer the varieties which we deem to give the best satisfaction.

The Poetaz and Polyanthus types, the French-grown Trumpet Major and Jonquil Campenelle, may be flowered for Christmas, while the Large and Medium Trumpets and the Double-flowering sorts may be had in bloom from the middle of January until early Spring.

When ordering the large-flowered or double varieties, please do not use the word "Jonquil," as the true Jonquil is the small or miniature-flowered sort.

Culture Outside. The large-flowered, or the sorts which have large bulbs, should be planted from 4 to 6 inches deep and about 5 inches apart. Planting should be begun as soon as possible after October 1st, but bulbs may be planted any time before the ground is frozen too hard to work.

Culture in Pots. As a general rule, treat Narcissus the same as Hyacinths. They should be planted about 6 bulbs in a 6-inch pot or pan and put in a dark and cool place, where they may develop their roots. Let them remain until January 1st, when they may be removed to a warmer temperature, but keep in the dark until the foliage is about 6 inches high; then bring to the light and allow them to flower.

Narcissus Poeticus

Poet's or Pheasant's Eye Narcissus

The Poeticus or Pheasant's Eye Narcissus is one of the best sorts for naturalizing in fields and woods and also for clumping in perennial beds and among shrubbery. When these are once planted they will remain in the same place for some years and will also increase their quantity of bulbs. All varieties of this type are perfectly hardy.

Add 5 cts. per doz., or 30 cts. per 100, for postage.

Poeticus. The true Poet or Pheasant's Eye Narcissus. Pure white with orange-red cup; very fragrant. Excellent for cutting; fine for naturalizing. Doz. 15 cts., 100 80 cts., 1000 \$7.00.

Poetaz Narcissus, Elvira

Narcissus Poeticus, Ornatus

Narcissus Poetaz Hybrids

These new Hybrid Narcissi are perfectly hardy and will force equally as well as the Polyanthus or Poeticus Ornatus from which they originated. The individual flowers retain the size and form of the Poeticus Ornatus as well as its fragrance and do not have the strong odor of the Polyanthus, resembling it only in quantity of blooms. While it is one of the best sorts for forcing in pots, it is admirably adapted for growing among pebbles in water, much the same as Narcissus Paper White. The producers of these beautiful Hybrid Narcissi thoroughly recommend them.

THE POPULAR LARGE-FLOWERED BUNCH NARCISSUS

For Christmas blooming, either in Soil
or Stones and Water.

Add 12 cts. per doz. for postage.

If grown in pots, eight weeks will produce the flowers. We especially recommend to grow this bulb in pebbles and water, after the fashion of Chinese Sacred Lilies, as they are far superior to the latter. Flowers appear in three weeks in greater numbers and more perfected. Twelve bulbs should be planted in an ordinary-sized dish. It is advisable to start the bulbs in a dark place for four to six days. Grow cool and give plenty of water. In order to grow successions of bloom during the entire Winter, we have provided to supply these bulbs until March 1.

Extra Large bulbs. Doz. 30 cts., 100 \$1.75, 1000 \$14.00.

Mammoth bulbs. Doz. 40 cts., 100 \$2.50, 1000 \$18.00.

Narcissus Poeticus Ornatus—Naturalized

Bulbs For Naturalizing

The naturalizing of bulbs on small home grounds as well as on large estates is quite in vogue at the present time. They produce wonderful effects in the lawns and fields, scattered everywhere in woodlands and among rocks and even in swampy meadows. There is an endless assortment of these beautiful flowers coming up year after year and at a time when nature demands some flowering plants. The varieties of bulbs used in this way are all perfectly hardy and will survive and flourish for years to come if planted and left to bloom by themselves without interruption. We recommend the planting of these in as large quantities as possible. It is not the individual effect, but the mass of bloom that will be sure to attract the utmost attention from even those who are not interested in flowers or horticulture.

Nature Garden Mixture of Narcissus

Delivered Free to any freight or express point in the United States

The exceedingly fine results that our customers had from this Nature Garden Mixture spurs us on in recommending this specially made assortment of Narcissus for nature planting. The varieties used in this mixture are the best and include all the types, such as Double, Large, Medium and Small Trumpets, Poeticus and other sorts. Most of the varieties herein listed will multiply and produce better effects each succeeding season. The planting of this excellent mixture of Narcissus is more advisable in large quantities and we would recommend using them in lots of 500 and 1000, or even more if space and time will permit. One thousand bulbs will produce an abundance of bloom from four to six weeks.

Miscellaneous List of Bulbs

Amaryllis Hippeastrum Hybridum

AMARYLLIS

The Amaryllis, one of the most beautiful of our tender or greenhouse bulbs, is greatly admired though little grown. Bulbs should be potted in the Autumn as soon as possible and allowed to root slowly. Their flower scape usually appears about February, after which the foliage commences to show. They should be kept growing until August or September and then allowed to rest until flowering time. Do not disturb the roots if repotting is needed. Most varieties are ready for delivery in October.

Elliottiana. (The Golden Calla.) A new variety with rich, golden-yellow flower and white-spotted foliage. May be grown to bloom during February and June. Flowers in Summer if planted in the early Spring. Bulbs ready in November. Each 50 cts., doz. \$5.00.

Little Gem. A miniature of the White Calla; grows 12 in. high and has flowers one-half the size of the regular; very graceful. A number of these may be grown in one pot. Ready for delivery in November. Each 10 cts., doz. \$1.00.

Pearl of Stuttgart. A comparatively new variety of graceful habit, dwarf, compact foliage, 18 in. high and large, massive flowers standing well above it. Excellent for pot plant. Ready for delivery in November. Each 25 cts., doz. \$2.50.

Rehmanni. (The Pink Calla.) Very distinct, with rose-colored blooms; quite new. Each 75 cts.

White Calla. (Richardia Æthiopica.)

The Richardia, or White Calla of the Nile, is probably the best known, and is always a very popular house plant on account of its free-flowering qualities. These bulbs, if potted during September and October, will bloom about January and continue until early Summer, when they should be dried off and replanted in the Autumn.

First size. Each 15 cts., doz. \$1.50.

Extra Selected. Each 25 cts., doz. \$2.50.

Jumbo Size. Each 35 cts., doz. \$3.50.

Calla Lily, Pearl of Stuttgart

Cyclamen Persicum Giganteum

Camassia Esculenta

Add 10 cts. per 100 for postage.

Very hardy and attractive Spring flowers, varying in color from deep blue to nearly white. They will last for years without disturbing and are very effective among shrubbery borders. Doz. 30 cts., 100 \$1.50.

Chionodoxa (Glory of the Snow)

No charge for postage.

Indeed the handsomest of our dwarf blue Spring flowers. They very much resemble Puschkinia. They should be extensively naturalized in grass plots and lawns, and are also fine for tables when forced.

Luciliae. Bright sky blue. Doz. 25 cts., 100 \$1.25, 1000 \$10.00.

Sardensis. Rich deep blue. Doz. 25 cts., 100 \$1.50, 1000 \$12.00.

Gigantea. Like C. Luciliae, but larger flowers of a softer color. Doz. 25 cts., 100 \$1.75, 1000 \$15.00.

Crown Imperials

(FRITILLARIA IMPERIALIS)

A stately, hardy border plant of majestic appearance. The flowers are produced in whorls of bells. The bulb should be planted in October, 9 in. deep, and placed on its side with a handful of sand underneath it to avoid decay.

Add 25 cts. per doz. for postage.

Aurora. Red. Each 25 cts., doz. \$2.50.

Crown upon Crown. Each 20 cts., doz. \$2.00, 100 \$15.00.

Eremurus Sent by express only.

A hardy herbaceous perennial with large Hyacinth-like racemes.

Himalaicus. Produces fine, white flowers about 1 in. in diameter, attaining a height of 3 to 4 ft. Each 75 cts., doz. \$8.00.

Robustus. Flowers first of June. The strong stems attain a height of 7 or 8 ft., bearing large, soft rose flowers in dense spikes. Each \$1.00, doz. \$10.00.

Cyclamen (Persicum)

No charge for postage.

Cyclamen plants rank among the most satisfactory of our house plants for Winter blooming. Good results are obtained from plants which are grown from bulbs, which, if potted during September, will produce excellent bloom from January until April or May. **Cyclamen Plants.** See page 33.

We offer first size bulbs, one year old, in the following colors: **Pure White, Soft Pink, Dark Crimson, Salmon and White with Pink Eye.** Each 20 cts., doz. \$2.00.

Eranthis Hyemalis (Winter Aconite)

No charge for postage.

The earliest Spring flower, often appearing through snow. Flowers golden yellow, 6 in. high. One of the best sorts for naturalizing in shrubbery or woody locations. Doz. 20 cts., 100 \$1.25, 1000 \$8.00.

Erythronium Dens-Canis

(DOG'S-TOOTH VIOLET)

No charge for postage.

One of the earliest-flowering bulbs; well adapted for rockeries and shady locations.

Mixed Colors. Doz. 20 cts., 100 \$1.00, 1000 \$7.50.

Chionodoxa Gigantea

FREESIA

One of the most popular of the early-flowering Fall bulbs. If planted during last week of August or early in September, they may be flowered by Christmas. Freesias are of easy culture and may be planted in early Autumn and allowed to root in a cool place for about three weeks, when they may be brought to the light and grown until in bloom. A very handsome display may be had by planting twelve bulbs in a 6-in. pot or pan.

Add 15 cts. per 100 for postage. No charge for postage by dozen.

Giant Freesia "Purity." This is, without doubt, the largest, finest and purest white Freesia in existence. Stems grow from 20 to 30 in. high and produce from six to a dozen enormous flowers of snowy white. Our stock of this superb variety is unsurpassed.

Mammoth Bulbs. Each 8 cts., doz. 60 cts., 100 \$4.00, 1000 \$37.50.

Extra Large Bulbs. Each 6 cts., doz. 50 cts., 100 \$3.50, 1000 \$30.00.

Giant Freesia, Purity

Gladiolus

Cardinalis or Nanus

The Orchid Gladioli

Ready in November

THE HARDY GLADIOLUS FOR THE GARDEN. PLANTED OUT IN FALL WILL FLOWER THE FOLLOWING JULY

A specialty of exceptional value both for forcing and outdoor culture. Extremely early flowering. Flowers outdoors in June and July

These beautiful early-flowering varieties are invaluable for pot culture and for border planting. They force readily, and they may be had in flower from the end of April till the end of July. They may be forced like Ixias, but they require more pot room, and they are invaluable for their yield of cut flowers from the open in June and July. They last long in water, and every flower opens to the extremity of the spike. Their rich colors and vivid markings on the lip petals rival those of Orchids, and we recommend this group not only for their beauty, but because they are very easy to grow. A light soil and a slight protection with litter during very sharp frost will prove all they require, and the spikes will be longer and the flowers larger if the plants are mulched in dry weather.

Add 5 cts. per doz., or 20 cts. per 100, for postage.

Ackermanni. Salmon orange, with white blotches, edged scarlet. Doz. 25 cts., 100 \$1.25, 1000 \$10.00.

Ardens. (Fire King.) Fiery scarlet, pink flakes. Doz. \$1.50, 100 \$13.00.

Blushing Bride. Pure white, with deep crimson flakes; most effective. Doz. 30 cts., 100 \$1.25, 1000 \$10.00.

Colvillei alba. (The Bride.) A small-flowered type used for forcing in greenhouses, producing compact spikes of pure white flowers. Doz. 25 cts., 100 \$1.50, 1000 \$11.00.

Colvillei rosea. Delicate pink. Doz. 25 cts., 100 \$1.50, 1000 \$11.00.

GLADIOLUS CARDINALIS—Continued

Lucretia. Large white, flushed rosy flesh, yellow blotch, edged red. Doz. 50 cts., 100 \$3.75, 1000 \$30.00.

Modesty. Very light violet, blotched rose. Doz. 30 cts., 100 \$1.50, 1000 \$12.00.

Ne Plus Ultra. Grows 3 feet high and has magnificent spikes of reddish-salmon flowers, with white tongue-shaped blotches on the lip petals. Forces splendidly, and likely to prove the standard Gladiolus for this purpose. Doz. 40 cts., 100 \$2.50.

Queen Wilhelmina. Blush white, with conspicuous blotches of cream, with scarlet margins. Doz. 50 cts., 100 \$3.00, 1000 \$30.00.

Peach Blossom. Delicate rosy blush blotched rose and cream; excellent Winter forcer. Doz. 35 cts., 100 \$2.25, 1000 \$20.00.

Pink Perfection. Deep rose. Doz. 25 cts., 100 \$1.25, 1000 \$10.00.

Salmon Queen. Beautiful salmon pink. Doz. 50 cts., 100 \$3.00, 1000 \$25.00.

Sappho. Delicate lavender, with faint creamy blotches edged violet. Doz. 25 cts., 100 \$1.50, 1000 \$12.00.

Sans Pareil. Light lilac, small blotch on lower petal. Doz. 25 cts., 100 \$1.50, 1000 \$10.00.

Ixia, William the Conqueror

Fritillaria Meleagris

(Guinea Hen Flower)

No charge for postage at dozen price; add 12 cts. per 100 for postage.

A genus of small flowers, hardy and peculiarly spotted and checkered; and usually with a drooping effect. May be used as borders along perennial beds. They are also among the best of the small bulbs for naturalizing, especially in meadows and thinly wooded places. It is advisable to plant these as soon as possible after September 20.

Finest Mixed Varieties. Doz. 20 cts., 100 \$1.25.

Helleborus Niger

(Christmas Rose) New England grown stock

We offer herewith New England-grown roots of this valuable plant, which we are certain will stand the severe Winters and flower from December till March, often right in the snow. Foliage remains waxy green all Winter and the white and often bluish-pink flowers will last for weeks after being cut. **The ideal plant for the Winter garden.** Divided roots (ready to flower). Each 50 cts., doz. \$5.00.

Sent by express only.

HYACINTHUS CANDICANS

A showy, hardy plant, blooming in July and August, and producing spikes about three feet long, crowned with numerous large pendent, bell-shaped white blossoms. Bulbs ready for delivery in November. It is advisable to plant them if ground is not frozen. Large Bulbs, doz. 30 cts., 100 \$1.75, 1000 \$14.00.

Add 10 cts. per doz., or 50 cts. per 100, for postage.

Ismene Calathina

Or **PANCRATIUM CALATHINUM** (Sea Daffodil)

A splendid house plant for the Winter or an outdoor plant for the garden. The plant resembles an Amaryllis and produces large Lily-like blooms of a milky white. They may be flowered in pots in the house or can be had in bloom during Summer. They should be rested, the same as Amaryllis. Each 15 cts., doz. \$1.50, 1000 \$10.00.

Ixia

The Ixia is admirably adapted for growing in the house, and as such is worthy of more general use. Twelve bulbs may be planted in a 7 to 8-in. pan, covered about 1 in., and put away to root, somewhat like Hyacinths, requiring very little water. When taken in the house, a warm place is best suited for them. Their curious markings and shadings make them attractive. No charge for postage at dozen prices. Add 10 cts. per 100 for postage.

Crateroides major. Bright scarlet; extra. Doz. 25 cts., 100 \$2.50.

Emperor of China. Golden yellow; purple eye. Doz. 40 cts., 100 \$3.00.

William the Conqueror. Large white; purple eye. Doz. 30 cts., 100 \$1.50.

Rosea plena. (Wonder.) Soft rose. Doz. 25 cts., 100 \$1.50.

Finest Mixed Varieties. Doz. 15 cts., 100 60 cts., 1000 \$4.00.

Viridiflora. Green and black center. Doz. 50 cts., 100 \$2.75.

Fritillaria Meleagris

IRIS

Dutch Iris (A New and Early Race)

The flowers are much larger than those of the ordinary Spanish Iris and characterized by wide faces covered with very conspicuous orange blotches.

Curiously, there are but a few yellows amongst them, so that the stock is at present still restricted.

They are at least a fortnight earlier than the Spanish Irises. They will fill up the awkward gap after the Tulips, and for this reason will be welcome additions to the herbaceous feature.

Jan Steen. Citron yellow, standards snow white, very beautiful. Each 20 cts., doz. \$2.25.

Saenredam. Clear sky blue and yellow; splendid flower, on strong stems. Each 25 cts., doz. \$2.50.

Albert Cuyp. Tall, strong grower, white flowers; grand form. Each 60 cts., doz. \$6.00.

Rembrandt. Lemon yellow, with lavender blue; extra strong grower. Each 30 cts., doz. \$3.25.

Anton Mauve. Pearl blue, a most beautiful and grand variety. Each 40 cts., doz. \$4.00.

Paulus Potter. Highly recommended; the largest flower of this strain; light, bright blue; extra. Each 40 cts., doz. \$4.00.

English Iris (Iris Anglica)

This is a beautiful flower, and the many garden varieties are among the finest flowers we have in early Summer. Flowers are quite distinct in aspect from those of the Spanish Iris and appear a fortnight or so later.

Prince of Wales. Dark blue; extra. Doz. 50 cts., 100 \$3.50.

L'Unique. Olive red. Doz. 50 cts., 100 \$3.50.

John Ducker. (Koh-i-noor.) White, spotted rose. Doz. 50 cts., 100 \$3.50.

Mont Blanc. Pure white. Doz. 50 cts., 100 \$3.50.

Blue Celeste. Light blue; extra. Doz. 50 cts., 100 \$3.50.

Rosa Bonheur. White, spotted violet. Doz. 50 cts., 100 \$3.50.

Surprise. Indigo blue. Doz. 50 cts., 100 \$3.50.

Superior Mixture. Doz. 25 cts., 100 \$1.50, 1000 \$12.00.

Iris Kaempferi and Germanica. See page 37.

Dutch Iris

Various Iris

Alata. Flowers of light blue, attaining a height of 15 to 18 in., with broad leaves and usually flowering in October and again in December; also a fine pot variety. Each 5 cts., doz. 50 cts.

Bismarckiana. Ash-gray in color, with darker veins and dark spot at base; inner segments sky blue, with blackish veins. Each 30 cts., doz. \$3.25.

Histiroides. Bright blue, large flowers; finer and earlier than the preceding. A grand Iris. Each 20 cts., doz. 25 cts., 100 \$2.00.

Orchioides. (Tuberous-rooted.) Dark orange yellow, with black spots on fall; very effective; four to six flowers on a spike; magnificent when well established. Very scarce; one of the finest Irises in cultivation. Each \$1.25.

Iris Pallida Dalmatica. A giant German Iris of vigorous growth, producing flower stems 3 to 4 and often 5 ft. high, which are lined with five to ten enormous fleure-de-lis of a most attractive, delicate sky-blue shade. It is a rare variety and excellent for naturalizing. Each 25 cts., doz. \$2.50, 100 \$20.00.

Pavonia. (Peacock Iris.) Beautiful blue flowers, dark blue spot; likes warm position; grows well in pots. Doz. 25 cts., 100 \$1.50, 1000 \$9.00.

Susiana. (The Mourning Iris.) One of the most singular of all flowers; from 1½ to 2½ ft. high; the flowers are large and densely spotted and striped with dark purple on a gray ground. Each 20 cts., doz. \$1.50.

Spanish Iris (Iris Hispanica)

This Iris is quite hardy in New England climate, and does particularly well in light friable soil between shrubs and perennials. The flowers are produced in early June, and the display of the bright colors makes a most gorgeous effect.

Alexander von Humboldt. Clear blue.

Belle Chinoise. Deep golden yellow.

British Queen. Pure white extra large.

Cajanus. Canary yellow, with orange-yellow blotches on falls. Doz. 15 cts., 100 \$1.00, 1000 \$7.00.

Chrysolora. Bright yellow.

Cornflower. Bright blue; extra large. 100 \$1.25, 1000 \$9.00.

Darling. Bright blue.

Helena. Pale blue, shaded lilac.

King of the Blues. Deep blue; extra fine sort.

King of the Yellows. New; magnificent golden yellow; strong growers. 100 \$1.50, 1000 \$12.00.

Leonidas. Dark violet blue.

Louise. Fine light blue.

Thunderbolt. Velvety dark bronze. Golden blotch. 100 \$1.25, 1000 \$9.00.

Vesuvius. Dark orange; unique color.

Superfine Mixture. 100 60 cts., 1000 \$4.00.

Per doz. 15 cts., 100 \$1.00, 1000 \$7.00.

Spanish Iris

HARDY LILIES

We make a specialty of Hardy Lilies. We can only deliver these as they mature and also according to the importations. Some varieties do not arrive in this country until the middle of November, while our native Lilies can be delivered as early as October 20. *Lilium Candidum* can be delivered after September 10. If we have your order, and the ground is frozen before we are able to make delivery, we have facilities for caring for the bulbs, which will be shipped as early as possible the following Spring.

AURATUM. (Golden-banded Lily of Japan.) This variety grows on a strong stem, 4 to 5 feet high, from six to twelve immense blooms which measure 10 inches when expanded. The flowers are white, with a broad yellow stripe through the center of each petal and freely spotted chocolate crimson. Their fragrance is delicious.

Mammoth Bulbs, 11-13 cir. Each 35 cts., doz. \$3.50, 100 \$25.00. Extra Large Bulbs, 9-10 cir. Each 25 cts., doz. \$2.50, 100 \$15.00. First Size Bulbs, 8-9 cir. Each 15 cts., doz. \$1.50, 100 \$10.00.

AURATUM RUBRUM VITTATUM. Very large flowers, often 1 foot across; pure ivory white, with broad crimson stripe through center of each petal. One of the choicest sorts. Each 75 cts., doz. \$7.50.

BATEMANNI. Japanese Lily producing bright orange-red flowers. 3 to 4 feet. July and August. Each 25 cts., doz. \$2.50.

BROWNII. Flowers very large, trumpet shaped, pure white inside, brownish outside. Stamens chocolate color. 3 ft. July and August. Each 75 cts., doz. \$8.00.

CANDIDUM. (Ascension, or Madonna Lily.) These are the famous bulbs from northern France, and, although they can be successfully forced, they are far better for the open garden. This is one of the best varieties for scattering among shrubs and in perennial beds. June and July. Our bulbs are all selected and the largest and strongest procurable. Each 15 cts. doz., \$1.50, 100 \$10.00.

Lilies for Forcing

Add 5 cts. each for postage. To insure thorough packing, dozen or more must go by express.

Lilium Harrisii (The Bermuda Easter Lily) Ready for delivery in August

Our stock of this well-known Bermuda Lily is unsurpassed, and has always proved satisfactory to all who have grown it, especially the florists. This is the best Lily for the amateur to grow for house culture. Pure white, with long, broad trumpets.

Mammoth Bulbs. Each 40 cts., doz. \$4.00, 100 \$30.00. Extra Large Bulbs. Each 20 cts., doz. \$2.00, 100 \$15.00. Selected Bulbs. Each 10 cts., doz. \$1.00, 100 \$7.00.

Lilium Formosum (Japan Grown) Ready for delivery in September

A comparatively recent introduction in Easter Lilies, which will grow as easily as the *Harrisii* and mature early, producing large, pure white blooms, while the foliage is not as heavy as *Harrisii*. We recommend planting about three bulbs in one pot.

Mammoth Bulbs. Each 40 cts., doz. \$4.00, 100 \$30.00. Extra Large Bulbs. Each 20 cts., doz. \$2.00, 100 \$15.00. Selected Bulbs. Each 15 cts., doz. \$1.50, 100 \$10.00.

Lilium Giganteum (True Black Stem) Ready for delivery in October

One of the best Lilies for Easter forcing, producing a large quantity of blooms from each bulb. This is a later flowering variety and requires a higher temperature. A particularly fine florists' variety.

Mammoth Bulbs, 9-10 cir. Each 20 cts., doz. \$2.25, 100 \$16.00. Extra Selected Bulbs, 7-9 cir. Each 10 cts., doz. \$1.50, 100 \$10.00.

New Double Pæony Milton Hill

The Finest Variety in existence

Very large, globular form, of compact rose type; delicate pale lilac rose; very distinct; pure color; exceedingly strong growth; of medium height; somewhat later in flowering than most varieties. Each \$5.00.

Collection of New, Rare and Beautiful Pæonies

The Pæonies are among the noblest and most magnificent of our herbaceous plants. With the addition of superb newer varieties.

The colors have the greatest range, embracing white, flesh color, rose, pink, salmon, yellow, scarlet and crimson in lighter and darker shades.

They require very rich soil, are perfectly hardy, and in planting care should be taken to select a rich, sunny place. The tip of the crown should be 6 inches below the surface.

Time of delivery. All roots can be delivered from early April until the end of May, and again from September on and until freezing time in the Fall.

Directions for Shipping. Pæony roots can only be shipped by express, purchaser paying transit.

Our list here only shows varieties. We have 300 varieties. If you do not find the variety wanted listed here, write us.

FRANKLIN PARK LAWN SEED

TRADE MARK REGISTERED

Superior Mixture for Lawns, Terraces, Croquet Grounds, Etc.

The mixture of grass seeds we sell under this name is made from the identical formula used by the Park Commissioners of the city of Boston in their work of laying out the beautiful lawns and terraces which add such a charm to our new parks. For many years the grass seed used on these parks has been supplied by us, which fact should be a strong guarantee of quality. The Franklin Park Mixture gives a fine, smooth, velvety sward within a very few weeks after sowing. Weight per bushel, 32 lbs. The very large demand for this lawn seed has necessitated our having the name "Franklin Park" registered as a trademark, in order to protect ourselves from imitators.

You will find no chaff in our Franklin Park Lawn Seed. It is all seed and will start to grow at once. In a very short time you will have a green lawn that is a pleasure to look at.

GOLF LINKS MIXTURE

Special Mixtures of Grasses for Pleasure Grounds, Golf Links, Putting Greens, Etc.

We have given much attention to the grasses used in Putting Greens, Golf Links, etc., as there is no purpose for which turf is grown that is so exacting. No other grass is required to stand so much rough usage, and it is therefore very necessary that the proper varieties be used to produce a thick and lasting sod. Foreign grasses are largely used in our mixtures, selecting those that thrive well here, with the addition of some American varieties that are equally fine and that have proved satisfactory in our experiments as well as in practical results obtained on the various golf courses. By using these mixtures, which are prepared specially for each use and with proper care, the finest Putting Greens and Fair Greens can be had.

Putting Green Grass Mixture

1 qt., 30 cts., postage paid 40 cts.
4 qts. \$1.00, express paid \$1.25.
1 pk. \$1.75, express paid \$2.00.
1 bus. (20 lbs.) \$6.00, express paid \$6.50.
Sow at the rate of 5 bus. to the acre.

Fair Green Grass Mixture

25 cts. per lb.; 100 lbs. at 23 cts. per lb.; 1000 lbs. at
20 cts. per lb. 50 lbs. should be sown per acre.

Shady Spot Lawn Seed

In many lawns there are trees which shade parts and sometimes nearly all the lawn, leaving unsightly places at times. Ordinary lawn seed does not give satisfactory results under these conditions. For sowing in such places we recommend the use of Special Mixture for Shady Places. In preparing such places for the reception of grass seeds we recommend the use of slaked lime quite liberally (at least 50 lbs. to 1,000 ft.). The lime sweetens the soil and aids wonderfully in the growth of the grass.

1 qt. 25c., express paid 35c.; 4 qts. 85c., express paid \$1.10; 1 pk. \$1.50, express paid \$1.85; 1 bus. \$5.50, express paid \$6.00.

The grasses used in making this special mixture are only those which are well adapted for growing in the shade, which in their natural and wild state grow and mature under these conditions.

Boston Quality Lawn Seed

What is more attractive than a well designed house surrounded by artistically treated grounds and a beautiful lawn, the rich, green, velvety turf being always the most attractive.

Use the "Boston Quality Lawn Seed." It is not the work of a novice to select varieties of grasses that will produce a lawn for all situations, but must be a person of long experience and thorough knowledge of the growth of grasses that will make a good turf. You will find the

"Boston Quality Lawn Seed"

one that meets the requirements. It is composed of such grasses that make a good turf, carefully blended together in such portions as will produce a good lawn when properly prepared and will grow under varied conditions, soils and climates and at different seasons of the year. Here is the advantage of the "Boston Quality Lawn Seed."

For making new lawns use 4 bushels to acre; 1 qt. will sow 300 square feet or a plot 15 x 20 feet.

Pt. 15 cts., qt. 25 cts., 2 qts. 45c., 4 qts. 85c., 1/4 bus. \$1.50, 1/2 bus. \$2.75, bus. \$5.00.

If by mail, add 10 cts. per qt.

Special Mixtures for Special Locations

We have many inquiries from customers who have made experiments of their own, and have found that certain varieties of grass will do better than others on their land. We are well aware that we cannot make one mixture that will do for all lands and are pleased to have our customers consult with us regarding varieties suitable for their particular land, or if they have certain varieties to include in their mixture, we are only too pleased to serve them in this way, for we have, on page 52, a very complete list of fancy varieties that we always carry a large stock of and will put up any mixture that may be desired. We have facilities for executing all such orders promptly.

Choice Selected Grass Seeds

Prices subject to change without notice

Awnless Brome Grass. (*Bromus inermis*.) Its habit is to make strong tufts and to hold its color till after hard frost. Its vigorous character makes it a good grass for embankments. 35 to 40 lbs. to the acre. Lb. 25 cts., 100 lbs. \$18.00.

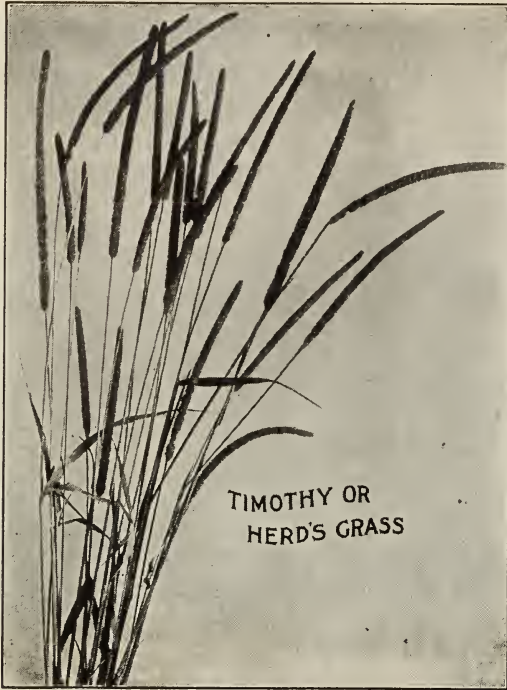

Beach Grass. (*Ammophila arundinacea*.) Valuable on the sandy seashore, canal and railway banks, etc. Its strong, creeping, matting roots bind the drifting sand into natural embankments against the action of wind and waves. Height, 2 to 3 ft. Lb. 50 cts., 100 lbs. \$40.00.

Creeping Bent Grass. (*Agrostis stolonifera*.) Long, prostrate, creeping stems, well adapted for sandy pastures near the coast, and useful for binding shifting sands or river banks subject to wash or overflow. Weight 15 lbs. to bushel. Lb. 25 cts., 100 lbs. \$20.00.

Crested Dog's Tail. (*Cynosurus cristatus*.) A slightly tufted perennial grass, 1 to 2 ft. high, with fine leaves. Is rarely sown alone; mostly used in mixture for seed of lawns. It forms a low and compact sward when thickly sown. It is said to thrive well in the shade. Weight 28 lbs. to bus. Lb. 30 cts., 100 lbs. \$25.00.

English Rye Grass. (*Lolium perenne*.) Produces a strong growth in four or five weeks after sowing. It cures into a hay that is rather hard, but having a sweet flavor and much relished by cattle and horses. Height 1 1/2 to 2 ft. Sow 60 lbs. to the acre. Lb. 15 cts., 100 lbs. \$10.00.

Hard Fescue. (*Festuca duriuscula*.) A slender, densely tufted perennial grass, 1 to 2 ft. high. Thrives on dry, sandy soils. Weight 14 lbs. to bus. Sow 30 lbs. to the acre. Lb. 25 cts., 100 lbs. \$20.00.

TIMOTHY OR
HERD'S GRASS

CHOICE SELECTED GRASS SEEDS—Continued

Italian Rye Grass. (*Lolium Italicum*.) It is a very rapid grower, forms a dense turf, and is regarded as an excellent hay grass. Weighs 22 lbs. to bus. Sow 50 lbs. to an acre. Lb. 15c., 100 lbs. \$12.00.

Kentucky Blue Grass. (*Poa pratensis*.) It varies very much in size and appearance according to the soil. Is recommended highly for lawns. Grows well in a rather dry soil, but will grow on a variety of soils. Weighs 14 lbs. to bus., and when sown alone use 3 bus. to an acre. Lb. 20 cts., 100 lbs. \$15.00.

Lime Grass. (*Elymus Arenarius*.) Valuable on sandy seashore and railroad banks, etc. It tends with its tough, wide-spreading and thickly matting roots to prevent the drifting of the sand. Lb. 75 cts., 10 lbs. \$7.00.

Meadow Fescue. (*Festuca pratensis*.) It is a valuable grass for either mowing or pasture. Does not attain to its full productive power till the second or third year. Weight 15 lbs. to bus. 40 lbs. to the acre. Lb. 30 cts., 100 lbs. \$25.00.

Meadow Foxtail. (*Alopecurus pratensis*.) It is a valuable pasture grass, on account of its early and rapid growth and of its being greatly relished by stock of all kinds. 3 or 4 lbs. to the acre. Height, 2 to 3 ft. Weighs 7 lbs. to bus. Lb. 35 cts., 100 lbs. \$33.00.

Orchard Grass. (*Dactylis glomerata*.) This is one of the most valuable and widely known of all the pasture grasses. Weighs 14 lbs. to bus. Sow 3 to 4 bus. to the acre. Lb. 25 cts., 100 lbs. \$18.00.

Red Top, Fancy Cleaned. It is absolutely free from chaff, weighs 32 lbs. to the bus., and 1 bus. is sufficient for an acre. Lb. 25 cts., 100 lbs. \$16.00, or market price.

Red Top. (*Agrostis vulgaris*.) This valuable grass is common in all our cultivated fields. A good, permanent grass for our climate. The seed usually sold weighs 14 lbs. to the bus.; a good part of this is chaff, and it requires 4 bus. to sow an acre. Market price about, lb. 10 cts., 100 lbs. \$5.00.

Red Fescue. (*Festuca rubra*.) It resists extreme drought and thrives on very inferior soils, gravelly banks and exposed hills. 25 lbs. to the acre. Lb. 30 cts., 100 lbs. \$25.00.

Rhode Island Bent Grass. (*Agrostis canina*.) Its hardy, creeping habit renders it desirable for close sward, also for lawns. Lb. 30 cts., 100 lbs. \$25.00.

Rough-Stalked Meadow Grass. (*Poa trivialis*.) Highly esteemed in mixtures for permanent pastures. It is perennial; grows from 1 to 3 ft. high. Succeeds best in soil rather moist and cool. 20 lbs. to acre. Lb. 45c., 100 lbs. \$35.00.

Sheep Fescue. (*Festuca ovina*.) Is well adapted for cultivation on light, dry soils, especially those which are shallow. Sow 35 lbs. to the acre. Lb. 30 cts., 100 lbs. \$25.00.

Sweet Vernal Annual. (*Anthoxanthum odoratum puelli*.) Much smaller than the perennial, and of much less value, lasting one year only. 20 to 25 lbs. to acre. Lb. 25c., 100 lbs. \$20.00.

Sweet Vernal, True Perennial. (*Anthoxanthum odoratum*.) Valuable on account of its vernal growth; continues to throw up root foliage until late in Autumn. 2 to 5 lbs. to the acre when mixed with other sorts. Lb. 60 cts., 10 lbs. \$5.50.

Tall Meadow Fescue. (*Festuca elatior*.) Very productive and of long duration, and is especially valuable for permanent pasture. Height, 3 to 4 ft. 40 lbs. to the acre. Lb. 30 cts., 100 lbs. \$25.00.

Tall Meadow Oat Grass. (*Avena elatior*.) Most valuable for pastures on account of its early and luxuriant growth. Withstands extreme drought and heat and cold. Height, 2 to 4 ft. 50 lbs. to the acre. Lb. 30 cts., 100 lbs. \$25.00.

Timothy, or Herd's Grass. (*Phleum pratense*.) As a crop to cut for hay, it is probably unsurpassed by any other grass now cultivated. Weight 45 lbs. to bus. If sown alone, use $\frac{1}{2}$ to 1 bus. to an acre. Market price from \$2.75 to \$3.50 per bus.

Various Leaved Fescue. (*Festuca heterophylla*.) Grows naturally in open woodlands or along their borders. It makes its best growth on low lying lands not too dry. Excellent for woodland parks. Sow 40 lbs. to the acre. Lb. 30 cts., 10 lbs. \$2.75.

Water Meadow Grass. (*Poa aquatica*.) For wet situations this is very useful, growing well in marshes or on margins of lakes, streams, etc. Has long creeping roots. Lb. 60c., 10 lbs. \$5.50.

Wood Meadow Grass. (*Poa nemoralis*.) Excellent for shaded positions in lawns and woodland parks. Very hardy, resisting extremes of heat and cold. 30 lbs. to the acre. Lb. 40 cts., 10 lbs. \$3.50.

Clover

Red Clover. (*Trifolium pratense*.) Medium. One of the most valuable farm crops for New England or in the West, for soil-ing, hay or turning under as green manure. Requires deep, rich soil and yields two crops in a season. Sow fifteen pounds to the acre. Lb. 30 cts., 100 lbs. \$27.00.

White Clover. (*Trifolium repens*.) Especially adapted for use in lawn grass mixtures. It is of dwarf habit, is very hardy. Sow 8 to 10 lbs. per acre. Lb. 50 cts., 100 lbs. \$40.00.

Alfalfa, or Lucerne Clover. (*Medicago sativa*.) Very valuable for forage. It requires deep, rich, well turned soil as it roots very deeply, the tap root often to a depth of 10 to 15 ft.; twenty to twenty-five pounds per acre. Lb. 25 cts., 100 lbs. \$20.00.

RED CLOVER

Used on the farm or garden for sweetening or purifying the soil; should be used early in Spring or late in Fall. 100-lb. bags \$1.00, ton \$12.00. Small packages for garden use, 10c. each.

INSECTICIDES

Climax Lawn Sand Destroys Weeds.

This remarkable preparation, when applied to weedy lawns, will adhere to the rough, hairy leaves of Dandelions, Plantains, etc., and, by absorbing therefrom all the sap, destroy them beyond recovery. Moreover, Climax Lawn Sand goes to the roots of smooth-bladed finer Grasses and acts as a valuable fertilizer. The most weedy and impoverished lawn will show a remarkable improvement after a single application. A booklet giving in detail all the merits of this wonderful weed eradicator, explicit directions for use and testimonials from every part of this country, will be gladly mailed free to any applicant.

When to Apply. March, April, May, July, August, September and October are the best months, selecting a bright sunny day, with a prospect of 24 to 48 hours settled weather.

JARDINIERE FLOWER POTS, OASIS.

8 days self-watering. When potting a plant, first fill the pot with water and allow it to stand for fifteen minutes, then turn off water and place plant in pot, packing the soil firmly to within $\frac{1}{4}$ inch of top edge of the pot. Place the pot in the reservoir and pour water into reservoir through the lip around the top edge of reservoir until water stands $\frac{1}{4}$ inch deep in the lip. The water supply of reservoir will last for 8 to 10 days, but it will be found more satisfactory to have an appointed day in the week for refilling the reservoir, since in that case the duty is less likely to be forgotten and neglected until the plants suffer for want of water. Under fairly favorable conditions, plants in these pots with ordinary attention will grow more rapidly, more vigorously and bloom more freely with less care than in the usual style of pot.

Poultry Supplies and Feeds

F. F. R. Co.'s Poultry Feeds

If you have never used any of our Poultry Feeds we wish to call your especial attention to their high quality, which means more to you than cheap prices. Our reputation for Seeds, Bulbs and Plants will stand equally high for our Poultry Supplies. While the prices of grains fluctuate, we do not bind ourselves to prices herein quoted. Apply to us and we will be pleased to quote prices. We will credit all bags returned in good condition.

QUALITY MASH FEED. Protein, not less than 20 per cent.; fat, not less than 4 per cent.; fiber, not more than 10 per cent. Ingredients: Corn meal, wheat bran, ground oats, wheat middlings, alfalfa meal, beef scraps, gluten, charcoal, oil meal. This mixture has stood the test for over six years without a change of formula. It is blended from only the best of grains, and insures the best of health and more eggs. 5 lbs. 15c., 10 lbs. 25c. 5 bags, f. o. b. Boston, \$9.50.

QUALITY SCRATCH FEED. Contains various cracked grains so blended as to give the fowl the right proportion of each grain to produce the condition that will give the user the eggs. This mixture contains but a small amount of corn. 5 lbs. 15c., 10 lbs. 25c. 5-bag lots, f. o. b. Boston, \$9.50.

QUALITY CHICK FEED. Composed largely of cracked wheat and oats. A very small proportion of corn is used, as we believe too much corn is a detriment to a young chicken's development. It contains not an ounce of anything but pure grains. 5 lbs. 20c., 10 lbs. 30c., 25 lbs. 70c., 50 lbs. \$1.30, 100 lbs. \$2.50. 5-bag lots, f. o. b. Boston, \$12.00.

QUALITY GROWING FEED. Blended from the developing grains and ground into a mash. Protein, 12 to 14.50 per cent.; fat, 3.50 to 4.50 per cent.; fiber, not over 9 per cent. Ingredients: Ground corn, ground barley, cotton seed, wheat mixed feed, rye shorts. We know from experience that it will start your pullets laying from 4 to 6 weeks earlier than other so-called forcing foods. 5 lbs. 15c., 10 lbs. 25c., 25 lbs. 60c., 50 lbs. \$1.15, 100 lbs. \$2.15, 5-bag lots, f. o. b. Boston, \$10.00.

QUALITY INTERMEDIATE CHICK FEED. Same as the chick feed only not ground quite as fine. 5 lbs. 15c., 10 lbs. 30c., 25 lbs. 65c., 50 lbs. \$1.20, 100 lbs. \$2.15. 5 bags, f. o. b. Boston, \$10.00.

QUALITY PIGEON FEED. Our peas in this mixture are grown especially for us and are small and plump. As are our other mixtures, it is blended for development and growth. 5 lbs. 20c., 10 lbs. 35c., 25 lbs. 75c., 50 lbs. \$1.35, 100 lbs. \$2.35. 5-bag lots, f. o. b. Boston.

Beef Scraps. We consider ground beef scraps almost indispensable for making hens lay during the Winter. Feed at least three times per week one ounce for each fowl, mixed with the daily mash. 5 lbs. 20c., 10 lbs. 35c., 25 lbs. 75c., 50 lbs. \$1.55, 100 lbs. \$2.75.

Edible Bone Meal. Made of steamed sweet bone pulverized. A fine article for growing or laying birds. 5 lbs. 20c., 10 lbs. 35c., 25 lbs. 75c., 50 lbs. \$1.30, 100 lbs. \$2.50.

Alfalfa Clover Meal. The Clover stock, leaf and blossom are all ground together so that the fowl gets all the substance of the matter entering into this carefully balanced food product. It comes nearest to nature of any grain and vegetable mixture. 5 lbs. 20c., 10 lbs. 35c., 25 lbs. 75c., 50 lbs. \$1.25, 100 lbs. \$2.25.

Hulled Oats. Hulled Oats are excellent for young poultry, especially ducks and turkeys; they are far superior to wheat, corn, rye or other grains, being easily assimilated and contain more bone and muscle making properties than other grains. 5 lbs. 25c., 10 lbs. 45c., 25 lbs. 80c., 50 lbs. \$1.65, 100 lbs. \$3.25.

Parrot and Canary Feed. We make a specialty of Parrot and Canary feeds, which are mixed by us from direct imported seeds. Parrot seed: Qt. 10c., 3 qts. 25c., pk. 65c., ½ bus. \$1.25. Canary seed: 1 lb. 10c., 3 lbs. 25c., 10 lbs. 65c., 25 lbs. \$1.50, 50 lbs. \$2.75, 100 lbs. \$5.25.

Oyster Shells. We handle the Baltimore shells re-cleaned. They contain no dust. 8 lbs. 10c., 25 lbs. 25c., 50 lbs. 40c., 100 lbs. 75c.

Mica Spar Grit. Has a sharp retained edge, thereby insuring perfect cutting and grinding qualities. Price: 8 lbs. 10c., 75c. per 100 lbs.

Poultry Charcoal. Poultry keepers cannot afford to be without charcoal. It absorbs dangerous elements from the fowl's system and prevents many sicknesses. It comes in three sizes, coarse, medium and very fine. Price, 2-lb. carton 10c., 50 lbs. \$1.00.

Dried Blood Meal. This is a highly concentrated form of animal food, rich in albumin and egg-forming material. It is odorless and contains only pure blood which makes it the cheapest animal egg food on the market today. Per 100 lbs. \$3.50.

Hen-e-ta. The only and absolutely sterile and germ-free "phosphatic-poultry-food" on the market. If judiciously used, as per formulas herewith, will save its weight and cost in grains. In other words, 500 lbs. grain plus 150 lbs. Hen-e-ta will make just as many pounds of protein assimilable as would 650 lbs. of grains fed the "old" way, with oyster shells, grits, etc. Hen-e-ta thus costs little or nothing. A whole army of poulterers, who keep records of their feeds, will tell you so. Price 100 lbs. \$2.25, 500 lbs. \$9.00.

Spratt's Patent Pheasant Meal No. 5. For young pheasants.

Spratt's Patent Pheasant Food No. 3. For adult birds. Price, 5 lbs. 40c., 10 lbs. 75c., 25 lbs. \$1.50, 50 lbs. \$2.85, 100 lbs. \$5.50.

Spratt's Poultry Food No. 3. A cooked food. The best and cheapest on the market. Is prepared strictly according to modern scientific methods and is the result of exhaustive experiments. It is neither a medicine nor a condiment, but a well balanced ration, specially prepared to produce eggs. It doubles the egg production, improves the quality and flavor of the egg, enriches the color of the yolk, increases the number of fertile eggs, and strengthens the germ. 5 lbs. 40c., 10 lbs. 75c., 25 lbs. \$1.50, 50 lbs. \$2.85, 100 lbs. \$5.50.

Spratt's Chicgrain. Is a perfectly balanced insect and vegetable ration; easily digested and highly nutritious. It is a compound of grains, meat, milk, etc.; the original formula has been used and improved upon for more than twenty years. Price, 5 lbs. 35c., 10 lbs. 60c., 25 lbs. \$1.00, 50 lbs. \$1.75, 100 lbs. \$3.25.

Spratt's Patent Chick Meal No. 5 and Chick Meal No. 12. This is a substitution for insect life in addition to its other advantages and thereby reduces mortality to a minimum, saving ten times its cost and frequently the cream of the flock. Price, 5 lbs. 40c., 10 lbs. 75c., 25 lbs. \$1.50, 50 lbs. \$2.75, 100 lbs. \$5.25.

Sunflower, Mammoth Russian. 3 qts. 25c., pk. 65c., ½ bus. \$1.25.

ROYAL POULTRY AND RABBIT FENCE

Designs, 2158, 2053, 1948

Stays, 6 inches apart. Rolls, 10 rods each. Designed especially to meet the urgent and growing demand from all sections for a thoroughly good and efficient poultry fence. Strong, substantial and adequate for gardens, orchards, yards and all places where it is desirable to confine or keep out poultry or other small animals. This fabric is not a light netting but is a substantial fence which, if properly erected, will not fail to bear out all and more than is claimed for it.

Lee's Lice Killer

The original liquid lice killer with many imitators but no equal. Guaranteed BETTER than any other. Strongest and best. Kills both by vapor and contact ALL vermin whether on the walls of the poultry-house or on the body of the fowls. Also a powerful disinfectant. Disease germs can not live where Lee's Lice Killer is used regularly. Sizes: gallons, half-gallons and quarts, at \$1.00, 60c. and ... **35c.**

Lee's Egg Maker

The perfect substitute for ALL other forms of meat food. Contains more DIGESTIBLE protein, costs less, and goes further, than beef scraps, bone, or any other meat food. Used by BIG breeders everywhere. Equally valuable as a Winter food for hens, for all penned-up poultry, and as a growing food for chicks. Four sizes: 100-lb., 25-lb., 5½-lb., and 2¼-lb., that sell for \$6.50, \$2.00, 50c. and ... **25c.**

Lee's Germozone

A tonic; a bowel regulator; a system builder. The BEST preventive and cure for Roup, Cholera, Bowel Complaint, and most other poultry diseases. In more general use today than any other poultry medicine ever manufactured. Given TWICE A WEEK in the drinking water to ALL fowls, it keeps them in prime condition. No poultryman should ever be without Germozone. One size only **50c.**

Lee's Insect Powder

Is thoroughly efficient for any purpose for which an insect powder is desired. Especially recommended for use on setting hens, or by those who have only a few fowls and prefer to treat them in this way. Also good for pet animals. Prepared in 2¼-lb. sifter-top box that sells for **25c.**

Lee's White Diarrhoea Remedy

Is the BEST remedy for this dread germ disease which has killed so many chicks in recent years. We believe it is the best cure and preventive of White Diarrhoea ever discovered, and don't know of a single instance where it has not proved satisfactory. The dose required is small, treatment simple, and cost insignificant. One size only **50c.**

MANDY LEE INCUBATORS

Some of the advantages of the Mandy Lee Incubators. Heat adjustment from end to end, so that both ends of a large incubator may be kept the same at all times, no matter what the climate, season, weather or altitude.

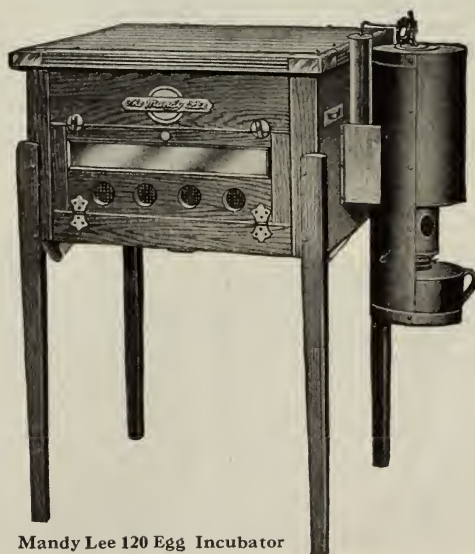

Heat adjustment from center to back and front. This enables the operator to keep the temperature in the middle the same as in the front or back.

Moisture measurement and automatic regulation of moisture are exclusive features for the Mandy Lee for 1912.

Automatic regulation of ventilation. This gives more regulation when heat runs high, and cuts off ventilation when heat runs low.

With our new complete automatic regulator we handle the whole thing at once. We set the regulator with certainty that it will take care of the extra heat in the day and low heat in the night. If heat runs high then heat is cut off, moisture is reduced automatically and ventilation increased automatically.

Mandy Lee Indoor Brooder. The correct brooding principle is direct contact heat as provided by the long, narrow hover of the Mandy Lee Brooder. This has long been recognized as the ideal hover, but the problem of heating the hover evenly from end to end has been the sticking point until we invented our triple pipe heating system, which has proved a perfect solution. The idea of applying a soft, contact heat direct to the backs of the chicks was never incorporated into anything practical until the manufacture of the Mandy Lee. The Mandy Lee Brooder is, of outside dimensions, 3 x 4 feet in size. It is as large as any 200-chick brooder on the market, but we call it only 100-chick size; 50 chicks on each side of the hover. It will hold more, but it doesn't pay to crowd. Price \$13.00.

FRANKLIN PARK LAWN SEED

(Trade Mark Registered)

**Superior Mixture for Lawns, Terraces,
Croquet Grounds, Etc.**

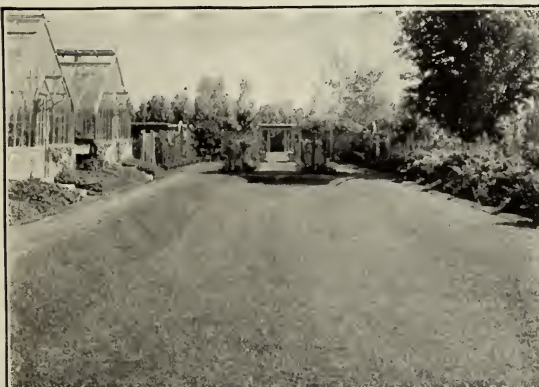

The mixture of grass seed that we sell under this name is made by the identical formula used by the Park Commissioners of the City of Boston in their work in laying out the beautiful lawns and terraces, which add so much charm to our new parks. For many years the grass seed used on these parks has been supplied by us, which fact should be a strong guarantee of quality. The Franklin Park mixture gives a fine, velvety sward within a few weeks after sowing. Weight per bushel, 32 lbs. The very large demand for this lawn seed has necessitated our having the name "Franklin Park" registered as a trade mark, in order to protect ourselves from imitators.

Our **Franklin Park Lawn Seed** is made up of all reclaimed seeds of the different varieties that will make a good lawn quickly, so that when the seed is sown, if the ground is in proper shape, it will start at once and in a short time show a beautiful, deep green lawn and maintain the same during the season with slight attention.

You will find no chaff in our Franklin Park Lawn Seed; it starts at once, and it requires less seed to sow a lawn.
